

A person with a prosthetic left leg is captured in motion, holding a yellow skateboard. They are wearing a white t-shirt, dark denim shorts, and black sneakers. The background is a light-colored wall with horizontal lines.

ARCHIMED

# IMPACTING HEALTHCARE

INTRODUCING EURÊKA FOUNDATION

Team meeting 31st October 2023

EURÊKA  
Foundation

# EURÊKA FOUNDATION

- Mission statement

➤ The purpose of the EURÊKA Foundation is to provide **funding and strategic support** to projects that improve research and innovation on undertreated diseases and provide support to fragile people affected by health problems (mental and physical).

# EURÊKA FOUNDATION

- Mission statement

Initially funded by donations from ArchiMed, Eurêka recently gained scale thanks to donations coming from the high performance of ArchiMed's inaugural fund, MED I. EURÊKA continues to receive 5% carried interest from all ArchiMed funds.

Thank you!!

Already close to € 3 M. donated to EURÊKA foundation

500 k€ spent in 2022

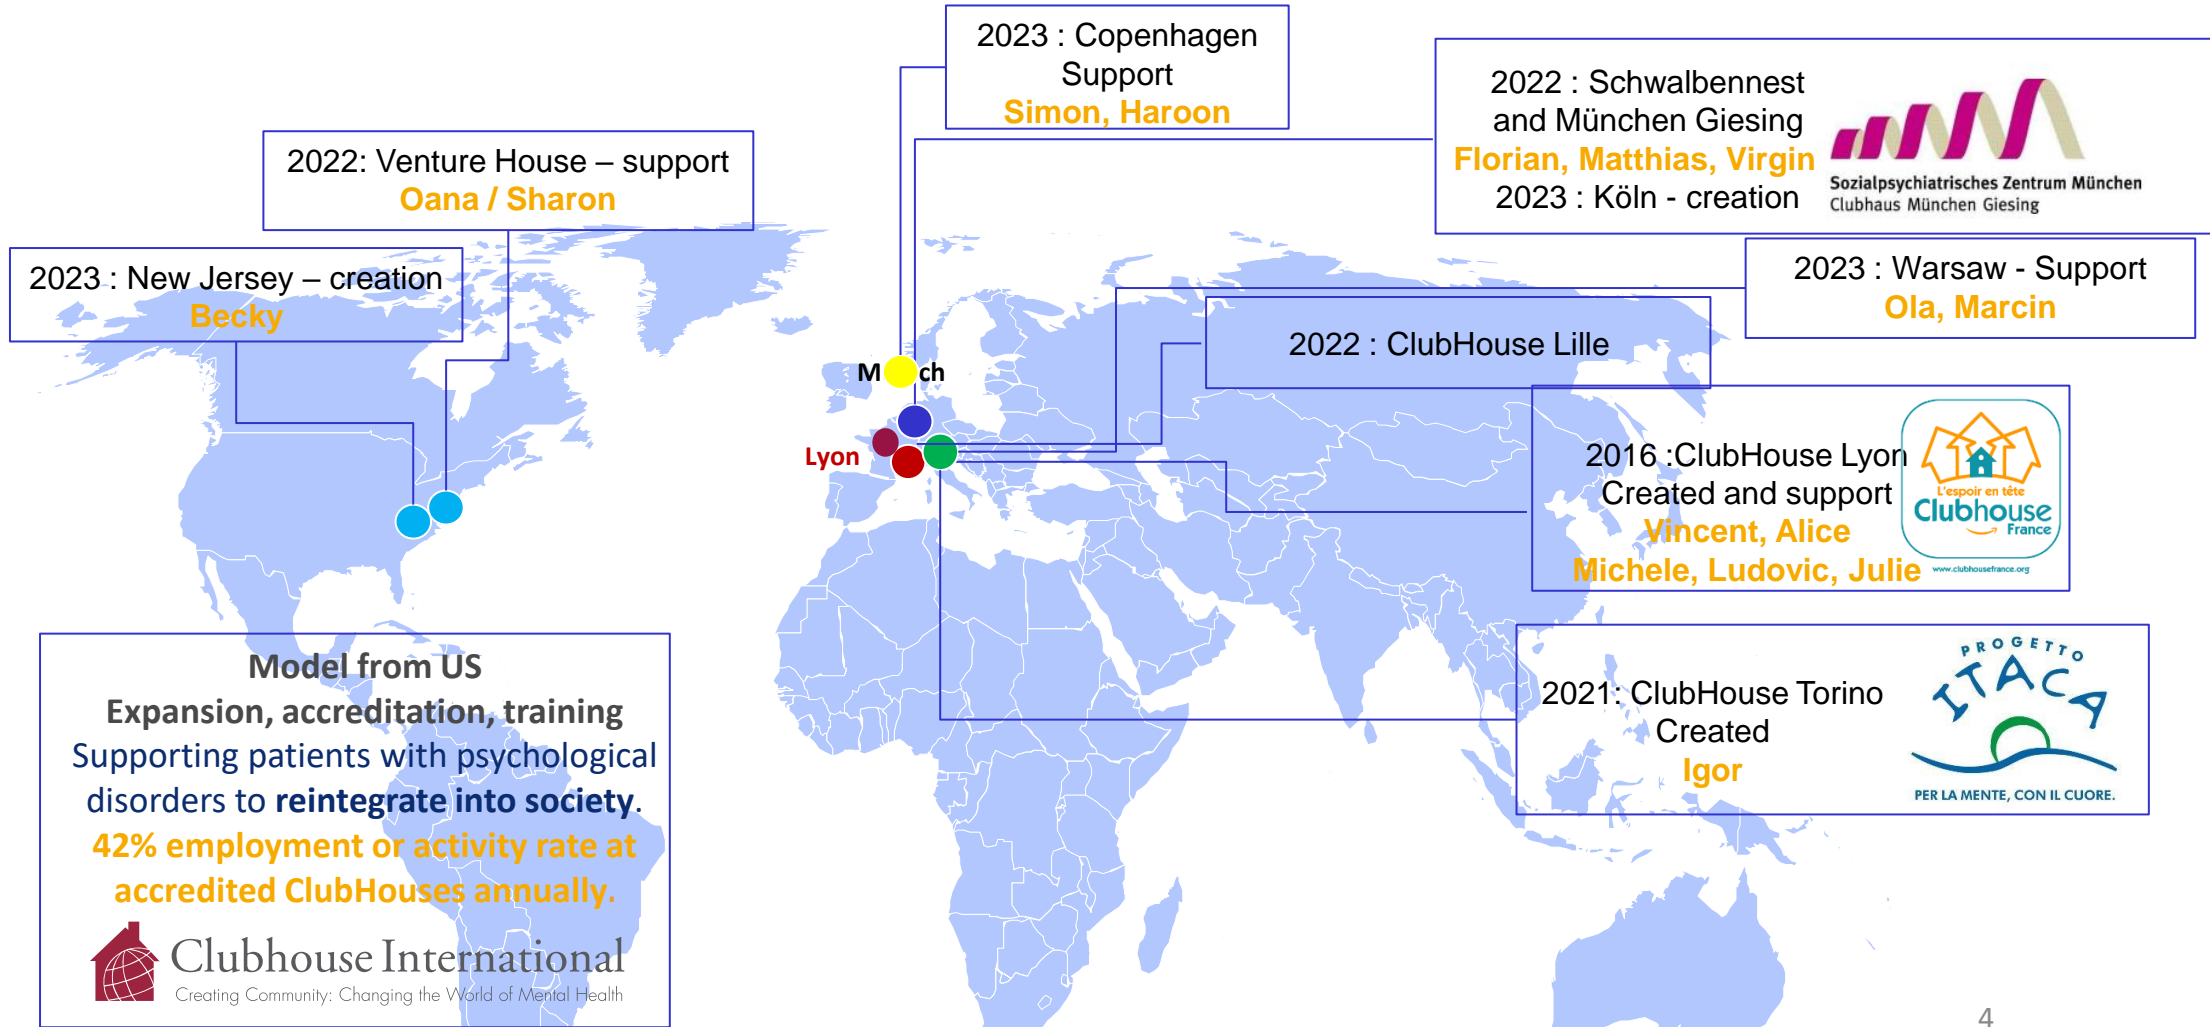

800 k€ spent in 2023

More to come!

10 clubhouses (6 more in 2023) / 14 associations (vs 6 in 2022) / 6 research projects

# ACTION : CLUBHOUSES

1. EURÊKA historical contribution was focused on an international charity called **Clubhouse**, that supports the recovery of **people with psychic illnesses** through a community. The Foundation helped create and develop a Clubhouse in France (Lyon), in Germany (Munich) and Italy (Torino) and are now considering expanding this program into USA (New York and New Jersey).

**Model from US**  
**Expansion, accreditation, training**  
 Supporting patients with psychological disorders to **reintegrate into society.**  
**42% employment or activity rate at accredited ClubHouses annually.**

**Clubhouse International**  
 Creating Community: Changing the World of Mental Health

# ACTION : 18 ASSOCIATIONS

1. **Simon de Cyrène** (shared houses for disabled and non disabled persons) - **Baptiste**
2. **Wings for Life** (spinal cord research) – **Steffen**
3. **Shaker** (back to employment) - **Ludovic**
4. **Courir avec** – Marathon des Sables – **Michael S.**
5. **Good bread for Good People** - **Tetiana**
6. **Equichance** (equitherapy)– **Alice Bo.**
7. **Danse en Coeur** - **Dr Clown** (laugh at hospital)– **Anaël**
8. **Collège Supérieur** – medical ethics reflexion– **Benoît.**
9. **Institut Montaigne** – care access – **André-Michel**
10. **Tombée du Nid** – parents of disabled children - **Michele**

Always with ARCHIMED champion(s)

Commit. Enjoy.

Be present (major events).

Involve team members, partners, resources.

Increase association's notoriety internally

- Support fragile people

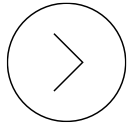

# FOCUS RUN IN LYON

- **Wings for Life** (spinal cord research) – **Steffen**
- Wings for Life is dedicated to leading and supporting these research initiatives. Video on the research work funded by the Wings for Life foundation: [Walking again after spinal cord injury - © EPFL+CHUV - YouTube](#)

# ACTION : MEDICAL INNOVATION

- Support medical research : 5 PhDs programs launched since 2022

November 7th / 10:30 – 12:00

## 2022

**1. Inserm** – 3 years – Marseille      Fighting **pancreatic cancer**  
Identification of predictive signatures of chemosensitivity of cell subpopulations by single-cell transcriptomic analysis in pancreatic adenocarcinoma.

**2. Institut Curie** - 3 years – Paris    **Immunotherapy**  
Discovery and characterization of epigenetic antigens for cancer immunotherapy through artificial intelligence and integrative proteogenomics.

**3. Human Technopole** - 4 years – Milan : Illuminating the effects of **chromosomal rearrangements** on 3D genome structure-function by programmed karyotype rewiring

## 2023

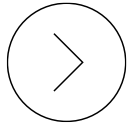

**4. Human Technopole** - 4 years – Milan : Predicting antibiotic resistance evolution

**5. CenTRIC** - 4 years – Edinburgh : Single-molecule detection of cryptic exons related to amyotrophic lateral sclerosis (ALS)

# ACTION : MEDICAL INNOVATION

- Scientific selection committee

**RESEARCH Proposals**  
Partners propose their medical research projects.

**Scientific Selection Committee – 8 persons**  
International, multidisciplinary and multisectoral panels of experts who volunteer their time and lend their expertise and knowledge to selection committee : Kenneth Ouriel, Pr.Iain Mattaj, Pr.Michele Zagnoni, Pr.Colin Campbell, Pr.Derek Raghavan, Pr.Walter Ricciardi, Klaus Malek & Denis Ribon.

**Peer Review**

**EVALUATE and SELECT**  
3 to 4 medical research projects / year in various domains.

**7<sup>th</sup> November**

**Meet EURÊKA  
Scientific committee &  
All research PhD  
Students and  
directors.**

**Next selection**

**30<sup>th</sup> January 2024**

**EURÊKA advisor for one program**

**Publication**

**FOLLOW UP** Challenge the milestones, and publications
